

# A new era for smaller Stumpers - Bandit Model 2250XP -

Bandit is set to revolutionise the lower horsepower end of the stump grinder market with the release of their new Model 2250XP Stump Grinder.

The Bandit 2250XP is fitted with a Kohler Command 27hp petrol engine and utilises Hydrostatic Cutter Head Technology usually found in much bigger, more expensive machines. Hydrostatic drive has tremendous advantages that are well known to owners and operators of larger stump grinders. The really exciting news is that the *Bandit 2250XP is set to be priced BELOW the model it replaces!*

Look at these features;

- Easy to use, being self-propelled with fully hydraulic operation.
- Hydrostatic drive has eliminated many expensive drive components. *No polychain belts and sprockets. No cutter wheel shaft. No jack shaft. No cutter wheel bearings. No jack shaft bearings.*
- Many thousands of dollars saved in spare parts and maintenance costs over the life of the machine.
- Lower centre of gravity for better stability and manoeuvrability.
- Engine sits level which will aid engine life.
- Engine air cleaner located at 'clean' end of machine which will aid engine life.
- Hydraulic oil cooler is fitted to ensure trouble free hydrostatic drive system even on hot days.
- Fitted standard with 700 series Greenteeth – turn the teeth 3 times before resharping.

The first shipments of this amazing machine arrive in first quarter 2012 so call Bandit today to book your demonstration. Call Bandit Tree Equipment on 1800-681733 or visit their website at
