

Bandit 1890XP “Brute” Drum Chipper

The 19” (485mm) chipping capacity Bandit Model 1890XP “Brute” packs the most punch of any single axle chipper under 4,500kg on the Australian market today.

Fitted as standard is the 6 cylinder 213hp CAT diesel, which has a whopping 932Nm of torque. This is 51% more torque than the most powerful competitors model, ensuring tremendous log chipping capacity. The infeed throat on the 1890XP is massive – 26” (660mm) high x 20.5” (521mm) wide.

The heavy-duty feed system features twin horizontal feed wheels that are 10.6” (270mm) in diameter. Both feed rollers are positioned right up against the chipper drum to ensure the Model 1890XP will chip forked material that other chippers cannot process. Ideal for big take-downs and crane jobs, the Model 1890XP is also available with a self-propelled rubber-tracked undercarriage.

The 1890XP is compact and easy to tow and is a proven machine in Australian conditions with over 100 units in the field. Call us today and arrange a demo of the 1890XP to see how it can transform your business!
