

Bandit Model 1990XP Drum Chipper

The 21" (530mm) chipping capacity Bandit Model 1990XP is the ultimate hand fed chipper.

With its 250hp CAT diesel, the Model 1990XP is designed to chip large, crotch material and smaller whole trees. This unit is bigger and more powerful than the Model 1890XP, and features a larger 26" (660mm) wide chipper drum that is 37" (940mm) in diameter. The infeed throat on the 1990 is massive – 26" (660mm) high x 24.5" (625mm) wide.

The heavy-duty feed system features a 15.75" (400mm) diameter top feed wheel and 10.6" (270mm) diameter bottom feed wheel. Both feed rollers are a super-sized 32" (813mm) wide allowing the Model 1990XP to chip forked material that other chippers cannot process. The heavy-duty feed system and added width of the chipper drum makes the Model 1990XP a real workhorse, reducing the need for trimming branches. Ideal for big take-downs and crane jobs, the Model 1990XP is also available with a loader or with a self-propelled rubber-tracked undercarriage.

Call us today and arrange a demo of the 1990XP to see how it can transform your business!

SPECIFICATIONS

Model	Bandit 1990XP	Height Adjustable Discharge Chute	Hand crank standard
Chipping Capacity	21" - 530mm	Discharge Chute Swivel	Hydraulic swivel standard
Engine Brand	CAT	Fuel Tank Capacity	152 litres
