

# Bandit Model 65XP Disc Chipper

The Bandit Model 65XP is a compact, easy-to-tow 6-inch capacity disc-style chipper.

Unlike most machines in the 6" class, the 65XP has a large infeed throat – at 12" wide x 6" high it is DOUBLE the size of most competitors machines. This allows the Model 65XP to easily process multiple stems as well as large pieces up to 6 inches (150mm) in diameter.

The Model 65XP also comes standard with DUAL horizontal feed rollers.

These extra wide feed rollers are positioned right up against the chipper disc so that the 65XP chips forked material with ease. This dual roller system feeds difficult material VASTLY better than single roller units. The Bandit 65XP is built on a rugged 100 x 50mm RHS steel chassis with an over-sized axle and 14" wheels and tyres. A low machine weight means it can be towed by just about any truck or ute, and the standard electric brakes add to towing safety. A gutsy Kubota 44hp DIESEL engine is fitted as standard, as is Bandit's Auto-Feed system which matches the chipper infeed speed to the engine power.

Call us to today to arrange your demo of the Bandit 65XP. You will see for yourself that this is a real work horse of a chipper – and not a toy like other 'so-called' 6" chippers on the market!

## SPECIFICATIONS

<b>Model</b>	65XP	<b>Height Adjustable Discharge Chute</b>	NA
<b>Capacity</b>	6" (150mm)	<b>Discharge Chute Swivel</b>	270 degree manual
<b>Engine Brand</b>	Kubota Diesel	<b>Fuel Tank Capacity</b>	30 litres
<b>Engine Power</b>	44 HP	<b>Hydraulic Tank Capacity</b>	27 litres
