

BANDIT EXPANDS INTO THE FUTURE

The busy team at Bandit Tree Equipment are excited to have celebrated two major milestones in recent weeks.

The first piece of big news is that Bandit Tree Equipment have taken over the sales, service and spare parts support for all of Bandit's customers in Western Australia and the Northern Territory, following the retirement of the former Bandit dealer, Glenn Fisher.

"I'm really excited about expanding into the WA and NT markets," says Mark Marriott, owner of Bandit Tree Equipment. "Between them, Jesse and Luciano have years of experience at Bandit Perth and they've come across to our company to run the show and take care of customers.

As part of our larger Bandit Dealership group, Bandit WA/NT now has expanded service, technical and parts support, which will be great for our WA/NT customers." The team at Bandit Tree Equipment WA/NT are located in the same facility at 155 Beechboro Road South, Bayswater, WA

and the phone number is unchanged at (08) 9272 6666.

The second part of Bandit's news is a big celebration. Just on 30 years ago, way back in May 1986, Mark started the business, importing and selling tractor mounted, PTO powered chippers from Denmark. These machines were soon being produced locally in Brisbane and proved popular with farmers and golf clubs. It wasn't long before they were overshadowed by the huge range of Bandit chippers and stump grinders that are still the backbone of the thriving business today.

"I can't believe it's been 30 years since we sold that first chipper to a customer in Queensland; time flies!" says Mark. "Over the decades our partnership with Bandit Industries in the US has been brilliant – they are such a great company to be associated with. Excellent machines, really well suited for the tough conditions we have over here.

"No business will survive 30 years without amazing staff, and that is certainly our biggest asset. More than half my team has been with us for over five years and a quarter of them over ten years," continues Mark. "I'm really proud of our Bandit team; they are totally focussed on keeping 100 per cent of our customers happy 100 per cent of the time."

With more than 30 years of experience, Bandit's service, parts and sales support teams are located at Seven Hills in Sydney, Knoxfield in Melbourne, Acacia Ridge in Brisbane and now Bayswater in Perth.
